An aerial photograph of a residential neighborhood. A large, irregularly shaped building footprint is highlighted with a thick black outline and filled with orange diagonal hatching. The building is situated on a grassy lot. Surrounding the lot are other houses with various roof colors (brown, grey, red) and some trees. A road or driveway is visible to the left of the highlighted building. In the bottom right corner, there is a small red circular icon with a white center and a blue ring, and a yellow rectangular icon with the letter 'P' in black.
